Verse 1

Though we all live differently
We are one family
Holding the world in our hands
It's our responsibility
There is no planet B
One sky, one ocean, one chance

Pre

Our hands are little
We only have two
With eight billion people
There's so much we can do

Chorus 1

Together we are stronger by far
A constellation of stars
A generation of change
The future is ours

Verse 2

We know the time is here
Breathing in the atmosphere
To give the planet some love
Shine our light, raise our voices
Make wiser choices
We can never give up

Pre

Our hands are little
We only have two
With eight billion people
There's so much we can do

Chorus 1

Together we are stronger by far
A constellation of stars
A generation of change
The future is ours

Chorus 2

Together we are stronger by far
No matter who or where we are
In every way
We create tomorrow by how we live today
